**DR. J. HOSTETTER'S
STOMACH BITTERS.**

FOR THE CURE OF
Dyspepsia, Indigestion, Nausea, Constipation, Flatu-
lency, Loss of Appetite or any Ridiculous Complaints
arising from a morbid inaction of the Stomach
or Bowels producing Cramps, Vomiting, &c.

One of the best and most efficacious
of all these pills yield magic tonics, giving instant
influence upon the system, and for a person in advanced
years, or recovering from sickness of any kind,
nothing can be more conducive to their convalescence
than the use of these Bitters as per direction on the
bottle.

Scarcely four years have elapsed since the first in-
troduction of "Dr. J. Hostetter's Celebrated Stomach
Bitters" to the public, and such has been the success of
that article after its introduction, that it is now
used by nearly every physician and druggist in
the country, and particularly in the West, which
is of times attended with much pain and trouble, we know of no preparation more highly adapted to
all afflictions consequent upon his cause, and for
curing the disease, nothing more effective.

Are you dyspeptic? Then take these Bitters.

Are you bilious? Try one bottle of these Bitters,
and be relieved at once.

Are you annoyed by indigestion or constipation?
Remember that the use of these Bitters.

Have you fever and ague? How many thousands
in the West and South have been cured of this
constitution-destroying disease by the free use of these
Bitters.

All should try this great Antidote. We venture to
affirm that when Hostetter's Stomach Bitters are
used, a case of Fever and Ague cannot occur; there-
fore, no family should ever be without it.

A WORD TO THE LADIES.

In recommending to you our Dr. J. Hostetter's Col-
lected Stomach Bitters, it is but just to state that
we are a simulant to the system, and not a stimulant
to the appetite or to peristaltic action, which
are of times attended with much pain and trouble, we know of no preparation more highly adapted to
all afflictions consequent upon his cause, and for
curing the disease, nothing more effective.

For Dr. J. Hostetter's Stomach Bitters and
the Bitter Water, see our advertisement in
the "Daily Journal."

One of these pills taken three times each before
meals, or half the quantity if the patient are in a
weak condition, and increased in proportion to their
strength, will cure all diseases of the stomach, and
will remove those persons who are personally satisfied of
the fact, as they will be by giving the Bitters one trial.

CAUTION.

Great care is to be used in purchasing these
Bitters, as they are of various qualities, become popular,

THE AGED AND INFIRM

Will find in these Bitters a cordial that will restore
them to health again. They are a safe, simple, and
safe remedy for all infirmities of the aged, and
will give them new life into their veins, and make their
dear ones down town in a few days, healthy and happy.

Fully one half of our feble population are in bad
health, or as they express it, "never feel well." They
feel weak, languid, and nervous, and are subject to
various diseases. These Bitters render them invincible
and cheerful.

With these Bitters the aged will live longer, and
will be enabled to enjoy a full and active life.

They are a safe remedy for all infirmities of the aged

Inquire at the Sentinel Office.

THANKSGIVING DAY.

Service will be held in the 1st Presbyterian Church, on Thursday the 26th instant, in which the several congregations of the city will unite, and where the public are invited to attend.

Hour of service, 104 o'clock, without the ringing of the bell.

BEEF AND PORK wanted in payment of accounts for the Sentinel. We would feel obliged if some of our subscribers would bring us a supply of beef and pork. However hard the printers must eat as well as other people.

A few loads of that oft-promised but seldom seen Wood would also be appreciated this cold weather.

THE DANGERS OF DELAY; OR, THE DELINQUENT'S PENALTY.—A tale of interest, by F. L. Fenton, Auditor of Allen County, occupies so large a space in our columns to day that we have but little room for other matter. The tale will be continued in our three succeeding numbers—and we must bespeak the forbearance of our readers until the publication is complete.

Bank of the State of Indiana.—In this season of bank suspensions, when public confidence is shaken, and all are in doubt what banks to trust or what note it would be safe to lay by for future use, it is gratifying to witness the strong faith which our citizens entertain in the stability of our own banks. So far as the new Bank of the State is concerned, that confidence is undoubtedly well founded. We are informed by one who understands the matter, that since the failure of the Trust Co. the Bank of the State of Indiana has reduced her liabilities about a million of dollars—that besides having about three million of dollars due her, in solvent notes and bills of exchange, she holds nearly eleven hundred thousand dollars of specie, and between three and four hundred thousand dollars of Eastern Exchange, while her currency on hand and balances in western banks are sufficient to cover all her actual deposits.

We are assured that a number of the Branches have coin and exchange enough to meet all their engagements to the public on demand, and that the Bank, as a whole, is unquestionably the strongest banking institution in the country.

Supreme Judge.—Among other offices to be filled next year, and for which candidates will be nominated at the approaching Democratic State Convention, to be held on the 8th January next, will be a judge of the Supreme Court. We understand that the friends of Judge JAMES L. WORONI will present his name before the convention for the vacant judgeship. It is a station he is eminently qualified to adorn. He is a good lawyer, of industrious habits, and irreproachable character, and now fills the office of judge of our Circuit Court with marked ability. His nomination would be highly satisfactory to the democracy of this portion of the state.

Legality of the City Taxes.—Judge Warden has decided, in a case brought against the City Treasurer for levying on a hasty payment of city taxes, that the taxes were legally assessed and could be legally collected. Many of our citizens have refused to pay their city tax this year, under an impression that they were illegally assessed, and could not be collected by law.

According to the above decision of Judge Warden, they would probably save money and costs by paying up without further delay.

CIRCUIT COURT.

The circuit court of this county has been in session during the past two weeks: but has not as yet disposed of many of the civil cases on the docket, if we except divorce cases. There were at the commencement of the session 36 applications for divorce, about one half of which have been disposed of. The Grand Jury was in session up to yesterday having returned, as near as we can learn, 20 bills of indictment.

The following criminal cases have been disposed of:

State vs Jacob Bush.—This was a charge of horse stealing. The def't was sent two years to the state prison; and a further bill having been returned for sentencing M. Glynn's ox, he was sent two additional years. He pleaded guilty w/o both charges.

State vs Milton G. Barnes for stealing a horse from Read & Daniels last summer. Sent two years to the state prison. He was one of the principal in the jail breaking last May.

State vs Wm Green. Charge of stealing Mr. Archer's horse last Sept. Sent three years to the state prison.

State vs George Mansfield, charged with counterfeiting. Sent to the state prison for two years. He too broke jail last May and was subsequently retaken in Toledo.

State vs John Campbell, alias John Tupple. This was the sharper who came the watch stuffing game on a passenger on the Ft W. & W R.R., near the depot, of which we spoke some two weeks ago. Sent to the state prison for two years. We learn that as the sheriff was conveying him to jail, after receiving his sentence on yesterday, and just as they came to the corner near Doctor Brooks' residence, one of his accomplices came up behind, and as the sheriff turned to see who it was, he was met in the eye with a handful of pepper, completely blinding him, when the prisoner started at full speed in the direction of the St Mary's river. The sheriff

managed to stop, but still had to turn back to meet the fellow, by whom he was again struck, and about five rods farther, he then turned west along the bottoms, and after running some distance, a bridge, a distance of about one mile, he found himself in the river, which notwithstanding the extreme coldness of the day, he attempted to cross. The Sheriff took the stream a little lower down, and succeeded in coming up to him about the middle of the river, where a sonic saved, in which the sheriff succeeded in getting him under water, and bringing him on shore, and from the ice to the jail. During the entire chase the sheriff failed to attract the attention of any person from whom he could obtain assistance. The prisoner's real name is Suple; he belongs to Detroit or Toledo. The jail ought to be in Town.

State vs Eliza Plummer. Larceny of wearing apparel. Convicted and sent to the County Jail for ten days.

Every criminal who has been put on trial has been convicted—a fact in a great measure due to the unwary vigilance of our excellent Sheriff, who has spent both time and money in hunting up testimony. So long as Fleming continues sheriff, rogues will find Allen County a hard place to follow their vocation, and will be deterred from making it their scene of the depredations by the certainty that punishment will follow their misdeeds.

Next Thursday, Nov 26th, is the day appointed by Gov Willard to be kept as Thanksgiving Day in this state.

U.S. Senators.—Hon. Robert Toombs has been reelected U.S. Senator from Georgia; and Gov A. G. Brown from Miss. pp

Texas Senators.—The Legislature of Texas, have elected J. P. Henderson and J. W. Hembly, U. S. Senators from that State. One is chosen as a successor to Gen. Houston, whose term expires on the 4th of March, 1859, and one to fill the vacancy occasioned by the death of Gen. Rusk.

In 1837, when the business world was convolved to its centre, under the effects of a monetary crisis, this country imported from abroad, during the year over eight million dollars worth of breadstuffs. In 1857, when we are experiencing symptoms of a similar revolution, we have a surplus of upwards of thirty million value of breadstuffs for export. In 1837 there were less than \$60,000,000 of specie in the country. In 1857 we have nearly \$300,000,000. The difference is decidedly encouraging.

The CONTINENTALS gave concerts here on Thursday and Friday evening, which notwithstanding the inclemency of the weather, were well attended. They fully sustained the high reputation they have acquired as the best concert company now travelling the United States, and gave entire satisfaction to all who listened to their harmony.

The weather has been excessively cold for a few days, with a little snow. Our canal is frozen solid, and navigation may be considered closed for the season.

For the Sentinel.

Fort Wayne Male Academy. This institution, situated one mile east of the centre of the city, on one of the most desirable spots in this vicinity, is now completed and will be open for the reception of pupils on the 16th of this month.

The Utah Expedition.—A cor. respondent of the Buffalo Courier, writing from Lawrence, says:

The expedition marched from here less than 1,500 strong, including the six companies of dragoons, (about 100 men) who were detained here by Gov Walker so long after the others had left, that it is very doubtful if they be able to get through this season. Col Johnston cannot therefore have with him on his arrival in Utah more than 1,300 men, supposing the dragoons to have succeeded in getting through. If they did not, he will not have more than 900 men. This is a very small force for the work to be done.

Indians in British America.—The delegates from the Territories of Oregon and Washington will, at the approaching session of Congress, demand from the Government on the behalf of their constituents, adequate protection against the present frequent and bloody Indian incursions from British America. Murders and outrages have been committed on our citizen in those territories time out of mind; and though our Government has again and again brought the matter to the attention of the British Government, it has been put off with fine promises. In all probability the subject will once more be brought to the attention of the British Government, with the hope that, as the Hudson's Bay Company, in whose territory these Indians are, is before Parliament for a renewal of its charter, something definite and satisfactory will be done.—Buffalo Courier.

Mosques of U.S. Troops.—A correspondent of the Daily Times, of Boston, says: The importance of a mosque of truth of which he expresses no doubt, to the effect that five hundred regular troops, supposed to be a detachment of the Utah expedition, had been attached and massacred by a large party of the Sioux Indians at some point near the Missouri River. The report at present is exceedingly intangible, and we are inclined to think, notwithstanding the faith of the correspondent, that it will prove unfounded, as otherwise the news would probably have reached us before this through some other channel.

New York, Nov. 17.—The Tribune's Washington correspondent says, the Cabinet will consider, to-morrow, the propriety of a thorough investigation of the conduct of the officials at New Orleans, in permitting the escape of Gen. Walker's expedition, after its capture, and the expressions of some quarters of removing those who are found guilty.

Mr. Far has tendered his resignation as Adj't to Switzerland. Mr. Mason has responded only to the suggestion from this side of the water, and desires to remain. He is supported in it by the wish of the French Government. Mr. Dodge withdraws reluctantly. The other places will be filled by the French Government.

It may not be generally known what particular advantages this Academy will possess. Prof. Stewart, the principal, will have charge of the following important departments: Arithmetic, Geometry, Algebra, History, Geography, Natural Philosophy, Languages, &c. Prof. Cramer (Philologist) in Greek and Latin, Mr. Kanz in Music, and Prof. Fleischmann in German and German history, and will also tender his service whenever circumstances require it. Thus it will be seen that the talents are here concentrated and will doubtless be judiciously applied. We trust that our worthy citizens will support this noble enterprise by sending their sons to this institution. Let prosperity lead to it a helping hand.

Some two years since, it became necessary to enlarge the Lutheran Seminary in consequence of the increase in the number of students. It was then proposed to erect a building sufficiently large to answer every purpose of an "Academy." As this met the approbation of all our citizens, a committee was elected and subscriptions received, and in a short time the required amount of \$6000 was subscribed. To show the interest manifested by the German citizens, the German Lutheran congregation of this town subscribed over \$3000, the balance was raised by some of our other citizens and surrounding friends in the country.

On the 4th of July, 1856, the laying of the cornerstone was witnessed by a large number of persons from both the city and surrounding country, and though we were compelled to combat with many disadvantages of the hard times for several years, the misgivings edified is now.

It is a general opinion that the Academy will be a success. The school will be opened in the fall of the year, and will be conducted in a very simple and inexpensive manner.

NOVEMBER, NO. 10.

Information from Fort Wayne, which has been received by the mail, concerning the government of the country, and the condition of the government forces.

In consequence of new discoveries and explorations by the Indians, the military forces have abandoned the old route, and are approaching the Bear Lake Valley by an open plateau of the western extent of Bear and Maliboo Rivers. Gov. Cumming and Col. Cooke met two days ago, and exchanged 100 prisoners.

The news is not of an important description.

The Belgian ministry had resigned.

King Victor Emanuel of Sardinia, had submitted his resignation to the Italian ministry.

The telegraph between Boone and Cape Vincent is suspended.

The health of the King of Prussia continues to improve.

The attempt to launch the Great Eastern was made on the second day, but resulted in a failure, and the second trial had been postponed one month. Several persons were injured, and two of them seriously.

There is nothing new from India.

The English money market was in a depre-

ssive state.

Consols for money closed on the 3d at 89 5-8 a \$93, and for account, 7th December, 90 1/2 a \$93. Stock market was quoted at 209 2/11, and East India stock 210 1/2 a \$100.

Allen Co. Democratic Convention.
The democrats in Allen County are requested to hold meetings in their several townships, on Saturday the 5th of December next, and appoint delegates to attend the County Convention to be held at the Court-house in Fort Wayne on Saturday the 12th of December, at 1 o'clock P.M. for the purpose of appointing 16 delegates to the State Dem. Convention, to be held at Indianapolis on the 8th of January next.

The number of delegates from each township according to the apportionment made from the Presidential vote, is as follows:

Abute	4	Maurice	3
Adams	13	Milan	4
Cedar Creek	9	Monroe	4
Eel River	3	Perry	7
Jackson	3	Pleasant	3
Jefferson	11	Scipio	3
Lafayette	8	Springfield	6
Lake	6	St Joe	7
Madison	5	Washington	11
Marian	11	Wayne	20

By order of the County Committee.
F. P. RANDALL, Chair'n.

Also, a CARD PRESS, nearly new, at a great reduction from first cost.

Several pounds of good WOOD AT A DISCOUNT, from 30-line, will be sold at a discount of over 50 per cent. from first cost.

Inquire at the Sentinel Office.

THANKSGIVING DAY.

Service will be held in the 1st Presbyterian Church, on Thursday the 26th instant, which the several Congregations of the city will unite, and where the public are invited to attend.

Hour of service, 10 o'clock, without the ringing of the bell.

BEEF AND PORK wanted in payment of accounts for the Sentinel. We would feel obliged if some of our subscribers would bring us a supply of beef and pork. However hard the times, printers must eat as well as other people.

A few loads of that oft-promised but seldom seen Wood would also accept this cold weather.

THE DANGERS OF DELAY; OR THE DELINQUENT'S PENALTY, a tale of interest, by F. L. Furie, Auditor of Allen County, occupies so large a space in our column to day that we have but little room for other matter. The tale will be continued in our three succeeding numbers—and we must bespeak the forbearance of our readers until the publication is complete.

Bank of the State of Indiana.—In this season of bank suspensions, when public confidence is shaken, and all are in doubt what banks to trust or what notes it would be safe to lay by for future use, it is gratifying to witness the strong faith which our citizens entertain in the stability of our own banks. So far as the new Bank of the State is concerned, that confidence is undoubtedly well founded. We are informed by one who understands the matter, that since the failure of the Trust Co. the Bank of the State of Indiana has reduced her liabilities about a million of dollars, that besides having about three million of dollars due her, in solvent notes and bills of exchange, she holds nearly eleven hundred thousand dollars of specie, and between three and four hundred thousand dollars of Eastern Exchange, while her currency on hand and balances in western banks are sufficient to cover all her actual deposits.

We are assured that a number of the Branches have coin and exchange enough to meet all their engagements to the public on demand, and that the Bank, as a whole, is unquestionably the strongest banking institution in the country.

Supreme Judge.—Among other offices to be filled next year, and for which candidates will be nominated at the approaching Democratic State Convention, to be held on the 8th January next, will be a judge of the Supreme Court. We understand that the friends of Judge JAMES L. WENDELL will present his name before the convention for the vacant judgeship. It is a statu he is eminently qualified to adorn. He is a good lawyer, of industrious habits, and irreproachable character, and now fills the office of judge of our Circuit Court with marked ability. His nomination would be highly satisfactory to the democracy of the portion of the state.

Legality of the City Taxes.—Judge WORDEN has decided, in a case brought against the City Treasurer for levying on a hasty in payment of city taxes, that the taxes were legally assessed and could be legally collected. Many of our citizens have refused to pay their city tax this year under an impression that they were illegally assessed, and could not be collected by law.

According to the above decision of Judge WORDEN, they would probably save money and costs by paying up without further delay.

CIRCUIT COURT.

The circuit court of this county has been in session during the past two weeks; but has not as yet disposed of many of the civil cases on the docket, if we except divorce cases. There were at the commencement of the session 36 applications for divorce, about one half of which have been disposed of. The Grand Jury was in session up to yesterday, having returned, as near as we can learn, 20 bills of indictment.

The following criminal cases have been disposed of:

State vs Jacob Bush.—This was a charge of horse stealing. The defendant was sent two years to the state prison, and will be sent back to the state prison for two additional years. He pleaded guilty to both charges.

State vs Milton G. Barnes for stealing a horse from Read & Daniels last summer. Sent two years to state prison. He was one of the principal men in the jail breaking last May.

State vs Wm Green. Charge of stealing Mr. Archer's horse last Sept. Sent three years to the state prison.

State vs George Mansfield, charged with counterfeiting. Sent to state prison for two years. He too broke jail last May and was subsequently retaken in Toledo.

State vs John Campbell, charged with assault and battery with intent to murder. Sent to state prison for two years. He too broke jail last spring.

State vs John Campbell, alias John Tuppel. This was the sharper who came the watch stuffing game on a passenger on the Ft. W. & W. R. near the depot, of which we spoke some two weeks ago. Sent to the state prison for two years. We learn that the sheriff was conveying him to jail, just as they came to the corner near Doctor Brooks' residence, one of his accomplices came up behind, and as the sheriff turned to see who it was, he was met in the eyes with a handful of pepper, completely blinding him, when the prisoner started at full speed in the direction of St. Mary's river. The sheriff

managed to keep in sight, and when Campbell reached the river, by a short cut came within about five rods of him; but he turned east along the bottom, and after coming near the St. Mary's bridge, a distance of about three-fourths of a mile, finding the Sheriff gaining steadily upon him, he took to the river, which notwithstanding the extreme coldness of the day, he attempted to cross. The Sheriff took the stream a little lower down, and succeeded in coming up to him about the middle of the river, where a scuffle ensued, in which the sheriff succeeded in getting him under water, and bringing him on shore, and from the nose to the jail. During the entire chase the sheriff failed to attract the attention of any person from whom he could obtain assistance. The prisoner's real name is Supple; he belongs to Detroit. Toledo. The jail ought to be in Town.

State vs. Eliza Plummer. Larceny of wearing apparel. Convicted and sent to the County Jail for ten days.

Every criminal who has been put on trial has been convicted—a fact in a great measure due to the unrewarded vigilance of our excellent Sheriff, who has spent holi time and money in hunting up testimony. So long as Fleming continues sheriff, rogues will find Allen County a hard place to follow their vocation, and will be deterred from making lighter the acceptation of the deprivations by the certainty that punishment will follow their misdeeds.

Next Thursday, Nov. 28th, is the day appointed by Gov Willard to be kept as Thanksgiving Day in this state.

U. S. Senators.—Hon ROBERT TOOMBS has been reelected U. S. Senator from Georgia; and Gov A. G. Brown from Miss. spp.

Texas Senators.—The Legislature of Texas, have elected J. P. Henderson and J. W. Hembree, U. S. Senators from that State. One is chosen as a successor to Gen. Houston, whose term expires on the 4th of March, 1859, and one to fill the vacancy occasioned by the death of Gen. Rush.

In 1837, when the business world was convulsed to its centre, under the effects of a monetary crisis, this country imported from abroad, during the year over eight million dollars worth of breadstuffs. In 1857, when we are experiencing symptoms of a similar revolution, we have a surplus of upwards of thirty millions of value of breadstuffs for export. In 1857 there were less than \$60,000,000 of specie in the country. In 1857 we have nearly \$300,000,000. The difference is decidedly encouraging.

The CONTINENTAL gave concerts here on Thursday and Friday evenings, which notwithstanding the inclemency of the weather, were well attended. They fully sustained their high reputation they have acquired as the best concert company now travelling the United States, and gave entire satisfaction to all who listened to their harmony.

THE Mormons Preparing for Rebellion.—A correspondent of a Western paper, in speaking of the Mormons, says:

The weather has been excessively cold for a few days, with a little snow. Our canal is frozen solid, and navigation may be considered closed for the season.

Fort Wayne Male Academy.

This institution, situated one mile east of the centre of the city, on one of the most desirable sites in the country, is now completed and will open for the reception of pupils on the 16th of this month.

The importance of an institution of this kind has been felt for some years past by many of our German citizens, who wished to give their children the benefit of a higher education than that received in ordinary schools, but who either had not the means of sending them abroad to college, or wished to prevent them from being thrown into the immoral society to which youth is so much exposed when under the immediate supervision of their parents or guardians. For this purpose every possible pains have been taken to lay the foundation of a school that we hope may give satisfaction to every one who advocates the cultivation of the youthful mind.

Some two years since, it became necessary to enlarge the Lutheran Seminary in consequence of the increase in the number of students. It was then proposed to erect a building sufficiently large to answer every purpose of an Academy.

As this met the approbation of all our citizens a committee was elected and subscriptions received, and in a short time the required amount of \$6000 was subscribed. To show the interest manifested by the German citizens, in their town, a meeting of the congregation of this town, subscribed over \$3000, the balance was raised by some of our other citizens and surrounding friends in the country.

Massacre of U. S. Troops.—A correspondent of the St. Paul Times gives currency to a highly important rumor, of the truth of which he expresses no doubt, to the effect that five hundred United States troops, supposed to be a detachment of the Utah expedition, had been attacked and massacred by a large party of the Teowow Indians at some point near the Missouri River. The report at present is exceedingly intangible, and we are inclined to think, notwithstanding the faith of the correspondent, that it will prove unfounded; as otherwise the news would probably have reached us before this through some other channel.

New York, Nov. 17.

The Tribune's Washington correspondent says, the Cabinet will consider to morrow, the propriety of a thorough investigation of the conduct of the members of the Alta California, in permitting the escape of Gen. Walker's expedition, after its publication. A plan is suggested in some quarters of sending those who may be found guilty to trial.

It may not be generally known what particular advantages this Assembly will possess. Prof. Sutliff, sister, the principal, will have charge of the following important departments: Arithmetic, Geometry, Algebra, History, Geography, Natural Philosophy, Languages &c. Prof. Crramer (Philologist) in Greek and Latin. Mr. Katz in Music, and Prof. Fleischmann in German and German history, he will also teach his service whenever circumstances require it. This will be seen that the talents are here concentrated and will doubtless be judiciously applied. We trust that our worthy citizen will support this noble enterprise by sending their sons to the school in the territory.

On the 4th of July, 1856, the laying of the corner stone was witnessed by a large number of persons from both the city and surrounding country, and though we were compelled to contend with many disadvantages of the hard times for several years, the magnificent edifice is now completed.

On the 4th of July, 1856, the laying of the corner stone was witnessed by a large number of persons from both the city and surrounding country, and though we were compelled to contend with many disadvantages of the hard times for several years, the magnificent edifice is now completed.

It may not be generally known what particular advantages this Assembly will possess. Prof. Sutliff, sister, the principal, will have charge of the following important departments: Arithmetic, Geometry, Algebra, History, Geography, Natural Philosophy, Languages &c. Prof. Crramer (Philologist) in Greek and Latin. Mr. Katz in Music, and Prof. Fleischmann in German and German history, he will also teach his service whenever circumstances require it. This will be seen that the talents are here concentrated and will doubtless be judiciously applied. We trust that our worthy citizen will support this noble enterprise by sending their sons to the school in the territory.

kept in all Goods Stores, and others to mention.

All the above Goods were bought under unusual
circumstances, just after the recent
fall in the Wall Street Banks and the consequent
recession in the money market, and the banks
for failure of the importers and others, who had
elected them to sell to cash customers, we availed
ourselves of the opportunity, and willing to
give our customers the benefit of them, we would
sell all the ladies and the balance of mankind,
for we have the goods and are bound to sell them.
Bring along your cash.

Dear Sirs! Your wanted in payment of accounts for the Sentinel. We would feel obliged if some of our subscribers would bring us a supply of beef and pork. However hard the times, prices must eat as well as other people.

A few legs that oft-promised, but seldom seen, Wood would also be acceptable this cold weather.

THE DANGERS OF DELAY OR THE Delinquent's Penalty. A tale of interest, by T. L. Furst, Auditor of Allen County, occupies so large a space in our columns to day that we have but little room for other matter. The tale will be continued in our three succeeding numbers—and we must bespeak the forbearance of our readers until the publication is complete.

Bank of the State of Indiana.—In this season of bank suspensions, when public confidence is shaken, and all are in doubt what banks to trust or what mode it would be best by future use, it is gratifying to witness the strong faith which our citizens entertain in the stability of our own banks. So far as the new Bank of the State is concerned, that confidence is undoubtedly well founded. We are informed by one who understands the matter, that since the failure of the Trust Co. Bank of the State of Indiana has reduced her liabilities about a million of dollars—that besides having about three million of dollars due her, in solvent notes and bills of exchange, she holds nearly *eleven hundred thousand dollars* of specie, and between three and four hundred thousand dollars of Eastern Exchange, while her currency on hand and balances in western banks are sufficient to cover all her actual deposits.

We are assured that a number of the Branches have coin and exchange enough to meet all their engagements to the public on demand, and that the Bank, as a whole, is unquestionably the strongest banking institution in the country.

Supreme Judge.—Among other offices to be filled next year, and for which candidates will be nominated at the approaching Democratic State Convention, to be held on the 8th January next, will be a judge of the Supreme Court. We understand that the friends of Judge James L. Woods will present his name before the convention for the vacant judgeship. It is a station he is eminently qualified to adorn. He is a good lawyer, of indomitable talents, and incomparable character, and now fills the office of judge of our Circuit Court with marked ability. His nomination would be highly satisfactory to the democracy of this portion of the state.

Legating of the City Tax.—Judge Werden has decided, in a case brought against the City Treasurer for laying on a burly in payment of city taxes, that the taxes were legally assessed and could be legally collected. Many of our citizens have refused to pay their city tax this year under an impression that they were illegally assessed, and could not be collected by law.

According to the above decision of Judge Werden, they would probably save money and costs by paying up without further delay.

CIRCUIT COURT.

The circuit court of this county has been in session during the past two weeks; but has not yet disposed of many of the civil cases on the docket, if we except divorce cases. There were at the commencement of the session 26 applications for divorce, about one half of which have been disposed of. The Grand Jury was in session up to yesterday, having returned, as near as we can learn, 20 bills of indictment.

The following criminal cases have been disposed of:

State vs Jacob Bush.—This was a charge of horse stealing. The deft was sent two years to the state prison; and a further bill having been returned for re-stating M. Glynn's ox, he was sent two additional years. He pleaded guilty to both charges.

State vs Milton G. Barnes for stealing a horse from Bond & Daniels last summer. Sent two years to state prison. He was one of the principal leaders in Toledo.

State vs John Campbell, charged with assault and battery with intent to murder James Shadburner. Sent to the state prison for two years.

State vs George Mansfield, charged with counterfeiting. Sent to state prison for two years.

State vs John Campbell, charged with assault and battery with intent to murder James Shadburner. Sent to the state prison for two years.

State vs John Campbell, alias John Tulippe. This was the sharper who came the watch stuffing game on a passenger on the Ft. W. & W. R.R. near the depot, of which we spoke some two weeks ago. Sent to the state prison for two years. We learn that as the sheriff was conveying him to jail, after receiving his sentence on yesterday just as they came to the corner near Doctor Jones' residence, one of his accomplices came up behind, and as the sheriff turned to see who it was, he was met in the eye with a handful of pepper, completely blinding him, when the prisoner started at full speed in the direction of the St. Mary's river. The sheriff

managed to keep in sight, and when Campbell reached the river, by a short cut came within about five rods of him; but he turned out along the bottom, and after coming near the St. Mary's bridge, a distance of about three-fourths of a mile, finding the Sheriff going steadily upon him, he took to the river, which notwithstanding the extreme coldness of the day, he attempted to cross. The Sheriff took the stream a little lower down, and succeeded in coming up to him about in the middle of the river, where a struggle ensued, in which the sheriff succeeded in getting him under water, and bringing him on shore, and from thence to the jail. During the entire chase the sheriff failed to attract the attention of any person from whom he could obtain assistance.

In consequence of new discoveries and explorations by Landor's party, the military force have abandoned the old route, and are approaching Salt Lake Valley by an open plateau on the west descent Bear and Maliboo Rivers. Gov. Cummings and Col. Cooke met two days' march east of Fort Larance.

Bright Young disclaimed any knowledge of, or participation in the destruction of the supply train.

St Louis, Nov. 16.

Intelligence from Fort Kearney confirmed the report of the destruction of the government trains by the Mormons.

WASHINGTON, Nov. 13.

Serious apprehensions are felt for a portion of the Utah Expedition which at least accounts had passed Green River. It is thought it may be saved if the commander has the courage to retreat; but as to that would involve a disregard of his orders, it seems doubtful whether the responsibility of disobeying them will be assumed. Misgivings are felt for the safety of a settler train with half a million dollars worth of supplies, which was destroyed that day. If the heavy snows should have turned it out of the route taken by the other train, it is not improbable that it escaped sharing its fate, otherwise its situation is very precarious. The last letter from Col. John Green, commander of the expedition, retreated to the mountains to enter the Pinal Valley before winter, where he will not let his men starve, while the Mormon granaries are overflowing. Col. Johnson left Fort Verde in company of infantry at Fort Larance to keep communication.

WISCONSIN, Nov. 18.

The official despatches concerning the destruction of the supply train were received today. Brigham Young's proclamation declared martial law in Utah. He claims the right to do so by virtue of his authority as Governor of the Territory, and Superintendent of Indian Affairs, not having been suspended from exercising his functions, and of his power under the territorial organic act. He expressly forbids the United States troops entering the territory without his authority for doing so, and complains that the Mormons are treated as Americans, and that the government of the United States acted on misconceptions, the object being to drive the Mormons out of the Territory. The change of the proclamation is emphatic hostility to the United States. It is regarded as declaring war. When Col. Alexander was within 30 miles of Fort Bridger, which place is occupied by Mormon troops, he received a letter from Brigham Young through the commander of the Nauvoo Legion, warning the troops out of the Territory, but saying if they desired to remain till spring, they may do so, provided they will give their arms and ammunition.

The latter was accompanied by two copies of the proclamation and copy of the laws of Utah.

The Commander told Colonel Alexander that he was at the Fort to carry out Young's instructions, and expressed the hope that Alexander's answer and actions would be dictated by proper regard for the rights and liberties of American citizens. Colonel Alexander, in reply, [October 23d] said: "I have given you communication reference correspondence, and will submit it to the General commanding as soon as we arrive here, [Meaning Camp Winfield, on Navajo Fork.] In due time, all that I have to say is that these troops are here by the order of the President of the United States, and their future movements will depend entirely upon the order issued by the commandant in chief."

The Mormons Preparing for Rebellion.—A correspondent of a Western paper, in speaking of the Mormons says:

"Fort Wayne Mule Academy?"

This institution, situated one mile east of the center of the city, on one of the most desirable spots in this vicinity, is now completed and will be open for the reception of pupils on the 1st of this month.

The Nauvoo Legion—A correspondent of the Buffalo Courier, writing from Leavenworth says:

"The weather has been excessively cold for a few days, with a little snow. Our canal is frozen solid, and navigation may be considered closed for the season."

The Mormon Preparing for Rebellion.—A correspondent of a Western paper, in speaking of the Mormons says:

"I have information from a source which will not admit of a doubt, that the Mormons who recently left California, took with them nearly eight tons of powder and lead, and also a ton of revolver balls, all of which had been purchased from time to time in that State, and taken equally over to Carson Valley during the past six months.

The Buell Expedition—An ex-soldier of the Buffalo Courier, writing from Leavenworth says:

"The expedition marched from here less than 500 strong, including the six companies of 24 horses. About 100 men, who were detained by the Indians by Walker so long after the others had left, that it is very doubtful if they be able to get through this season. Col. Johnstone came there to live with him on his arrival in Utah more than 1,300 men, supposing the droves to have succeeded in getting through. If they did not, he will not have more than 900 men. This is a very small force for the work to be done."

Indians in British America.—The delegates from the Territories of Oregon and Washington will, at the approaching session of Congress demand from the Government, on the part of their constituents, adequate protection against the present frequent and bloody Indian incursions in British America. Measures and outlays have been committed to our citizen in these Territories out of mind; and though our Government has again and again brought the matter to the attention of the British Government, it has been left for some years past by many of our German citizens, who wished to give them the benefit of a higher education than that received in ordinary schools, but who either did not the means of sending them abroad to college, or wished to prevent them from being thrown in the immoral society to which youth is prone, have resorted entirely upon the order issued by the commandant in chief.

The Economist preparing for rebellion says:

PHYSICIANS always in attendance at the Eagle

Drug Store.

The proprietors hope by special care and attention to their business, to merit a liberal share of

public patronage.

They will be pleased to receive their

customers in their large and carefully selected

stock of DRUGS, MEDICINES, &c., which they

will sell on reasonable terms. While they do not

wish to enter into competition with their neighbors,

yet they say they will sell and cannot be under-taxed.
